First, do some chopping. Onions...

4

Then crisscross some tomatos and...

5

...pour some boiling water over them.

6

In the meantime you can do some parsley-chopping.

7

After a couple of minutes, pour veeery cold water onto the tomatos and peel the skin. In the meantime, boil some water and prepare the pasta.

8

Slice the tomatos.

9

Cut some bacon in pieces and put them in a pan.

10

Reduce the heat and add the chopped onion.

11

Add garlic and chili.

12

Add a shot of whiskey.

13

Add the tomatos, some tomato sauce and some tomato concentrate.

14

Finally some parsley and seasoning to your taste.

15

Serve with grated grana, parsley and pepper. Enjoy!
